

A PROGRESSIVE PATH FORWARD

The People's Budget

President Trump and Congressional Republicans want Americans to believe that we must slash funding for vital cornerstones of our society, including Social Security, Medicare and Medicaid, to pay for their tax handout to corporations and the extremely wealthy. The Congressional Progressive Caucus knows that this is a false choice, and recognize a path forward for our country that will put workers and everyday families first.

The Fiscal Year 2019 Congressional Progressive Caucus's **People's Budget: A Progressive Path Forward**, builds bridges of opportunity, starting with the most vulnerable communities. *The People's Budget* creates millions of jobs and increases wages for those who continue to be on the sidelines of our economy. It invests in our neglected infrastructure, ends the systematic inequality in our tax system by making corporations pay their fair share, and stops the rising cost of prescription drugs. *The People's Budget* provides a progressive pathway to building a strong economy so working families can prosper.

The People's Budget invests \$2 trillion to eliminate our lead-contaminated water system, address our overburdened mass transit system, and rebuild our schools, crumbling roads, and bridges. This budget transforms our fossil-fuel energy system to ensure our children have an inhabitable planet, and provides funding for worker re-training and apprenticeship programs.

The People's Budget takes a family first approach to budgeting. It cuts funding for the cruel immigration policies under the Trump Administration and adopts comprehensive immigration reform to strengthen our economy. The budget invests \$1 trillion for universal childcare, increases access to SNAP benefits, and expands the Child Tax Credit and Earned Income Tax credit.

Access to affordable health care remains one of our greatest challenges, especially in light of Republican attacks on the *Affordable Care Act*. *The People's Budget* supports immediate improvements to the ACA, provides \$12 billion in funding for states to transition to a single payer system, and addresses the rising cost of prescription drugs.

In order to give everyday families, the future they deserve, we must close the tax loopholes that the Trump tax scam left in place and rewrite the rules of a rigged economy that puts the interests of billionaires and big corporations over everyday families. *The People's Budget* protects Medicare's integrity and improves its long-term solvency, and ensures that Veterans Affairs will not be privatized and receives the necessary funding so that our veterans can access the best care and full benefits they deserve.

The Trump agenda drastically cuts programs supporting working families, the environment and our health care, while giving massive tax cuts to big corporations and bloating the military budget

beyond belief. *The People's Budget* takes a very different path, reinvests in American families, and prioritizes funding for education, health care, jobs and clean air and water. The Congressional Progressive Caucus's ***People's Budget: A Progressive Path Forward*** puts political and economic power back in the hands of the people.
